JDE Central

Wednesday, 16th May 2018, Birmingham NEC Crowne Plaza

9:00am – 9:30am

Registration and Refreshments
Tea/Coffee and pastries. A chance to network with your peers.

9:30am – 9:45am

Introductions to Version 1
David Golding (Head of UK Operations) will introduce Version 1 outlining the Version 1 Difference handing over to Aoife Sheridan (Head of Customer Success) who will explain why investing in Customer Success is critical to our own success .

9:45am – 10:15am

Importance of Financial Closing Processes and Integrity Validation
Jasbinder Sandhu (JDE Principal Consultant) - There are a number of simple things that can be done to improve efficiency and shorten the month end process cycle. Jasbinder will outline approaches to simplify the month-end calendar, as well as reviewing the tools available to both simplify process and identify and fix data related issues. This will be of particular interest to Finance users interested in the importance of having a structured month-end/year-end closing process which leverages and aligns to their JD Edwards Investment.

10:15am – 10:30am

Break

10:30am – 11:15am

Challenges and Opportunities of Enterprise Mobility
Stuart Johnson (Solutions Advisory) - There is significant opportunity to extend your JDE Investment by leveraging existing systems, controls, sensors, remote equipment and off site working using available mobile technologies to link and extend off system processes or remote working activities. Stuart will outline and explore both the challenges and opportunities of enterprise mobility. He will explore the mobile tools available within JDE and also the wider Oracle Mobile Cloud that can help you achieve tangible process efficiency and automation which is consistent with your own organisations digital strategy. Stuart will illustrate a series of simple opportunities via live demonstration which can bring the mobile opportunity to life.

11:15am – 11:30am

Break

VERSION 1

Agenda

11:30am – 12:15pm

JD Edwards Hosting Options and the Journey to the Cloud

Mark Tabbernor (Portfolio Director) – Exploring the variety of Hosting Operations available i.e. on premise, data centre, system hosting, cloud infrastructure. Migrating your JD Edward's infrastructure to the Cloud helps reduce the burden and cost of managing and upgrading both infrastructure and software. Mark will explore the journey from in-house on-premise, through Infrastructure to Platform- and Software-as-a-Service, creating an infrastructure underpinning your digital transformation strategy.

12:15pm – 12:45pm

Lunch

Opportunity to network with peers and Version 1 consultants will be on hand to answer any questions you may have.

12:45pm – 1:45pm

EnterpriseOne 9.2 Continuous Delivery and Features

Helen Honor (Lead Functional consultant) - Overview of the 9.2 Continuous delivery model and the latest and greatest features, including user defined objects such as form personalisations, orchestrations and notifications. JD Edwards continued investment and strong Product Roadmap ensures innovation is focussed on continuing to improve the user experience and enabling Digital Transformation. Helen will explore the movement towards Citizen Developers and provide insight as to how end user friendly these tools really are.

1:45pm – 2:00pm
