## Specialists in Oracle on Public Cloud

**We help customers migrate Oracle to the Public Cloud quickly, safely and successfully.**

Version 1 is uniquely placed to offer advice on your Oracle technology and applications landscape and what parts might be suitable to transform and migrate to the public cloud. We are an Oracle Platinum partner, with an unrivalled specialisation list on all aspects of the Oracle stack, including databases, JD Edwards and E-Business suite.

## Why Choose Version 1 as your Amazon Web Services Partner?

**aws** partner network

Advanced
**Consulting Partner**

MSP Partner

Version 1 is a leader in Enterprise Cloud services and was one of the first Amazon Web Services (AWS) Consulting Partners in Europe. We have a policy of continuous investment in technology solutions which benefit our customers and are in the small number partners to have achieved advanced partner status and competency in Oracle solutions. We are committed to skills accreditation and training for our consultants and have been recognised with the 50+ certified badge. This all serves to give customers assurance of optimal best practice cloud implementations. We are recommended by AWS to execute Well Architected Reviews on their behalf.
