“ Upgrading Oracle Financials itself is great but what makes this project different is the Cloud element. Putting an Internal Control over Financial Reporting system into the Cloud is a big deal. No one in the Great-West Lifeco Inc. has done this before, and there is a good reason for that. It was really, really difficult but you have proved it can be done and blazed a trail for the rest to follow. In business terms, Version 1 have opened up the possibility of us gaining real competitive advantage through technology.
