

VERSION 1

E-Business Suite to Oracle Cloud Infrastructure (OCI)

Run your E-Business Suite systems in the Cloud

Version 1 are experts in deploying and maintaining Oracle E-Business Suite in the Cloud, as a result of over 20 years of E-Business Suite experience and are also the #1 Oracle Partner of choice as voted for by their customers. Many organisations are now exploring how they can leverage the power of the Cloud in their IT and Business Systems. Hosting E-Business Suite in the Cloud will retain the ability to tailor and customise E-Business Suite solutions to meet key business requirements, whilst gaining the benefits of native Cloud services.

Version 1 provides the services to migrate to and run E-Business Suite applications on Oracle Cloud Infrastructure (OCI). Following a migration to OCI, Version 1 will maintain the system, by optimising the balance between frequency of update, with the ability to consume new OCI features that meet customers' business needs. In addition, Version 1 will provide a complete Service Desk support infrastructure so that customers can receive support when needed.

Benefits of E-Business Suite on OCI

Lower total cost of ownership

Take advantage of the huge flexibility and scalability that OCI enables

Unlimited availability of compute and storage

Access security-hardened to your requirements

Physical data centre security that most data centres would struggle to match

No responsibility for running and maintaining the application

Increase workforce productivity

Resilience and disaster recovery solutions tailored to your requirements

“ Upgrading Oracle Financials itself is great but what makes this project different is the Cloud element. Putting an Internal Control over Financial Reporting system into the Cloud is a big deal. No one in the Great-West Lifeco Inc. has done this before, and there is a good reason for that. It was really, really difficult but you have proved it can be done and blazed a trail for the rest to follow.
Ken Lynch, Head of Information Systems, Corporate Business ”
