

**VERSION 1**

# PeopleSoft to Oracle Cloud Infrastructure (OCI)

Run your PeopleSoft systems in the Cloud

With over 20 years of PeopleSoft experience and recognised as #1 Oracle Partner as voted by customers, Version 1 are experts in deploying and maintaining PeopleSoft servers in the Cloud. Many organisations are now exploring how they can leverage the power of the Cloud in their IT and Business Systems. Hosting PeopleSoft in the Cloud will retain the ability to tailor and customise PeopleSoft solutions to meet key business requirements whilst gaining the benefit of native Cloud services.

Version 1 provides the services to run your PeopleSoft applications in OCI. Once up and running, Version 1 will maintain the system according to the balance between frequency of update and the ability to consume new features that are right for our customers. In addition, Version 1 will provide a complete Service Desk support infrastructure so our customers can receive support when needed.

## Benefits of PeopleSoft on OCI

Physical data centre security that most data centres would struggle to match

Take advantage of the huge flexibility and scalability that OCI enables

All you need to focus on is running your HR or Financials function as required

Access security-hardened to your requirements

Unlimited availability of compute and storage

No responsibility for running and maintaining the application

Exploit native Cloud services such as PeopleSoft Cloud Manager, File Systems, Email Services, Load Balancer and more

Resilience and disaster recovery covered to your requirements

“ The work delivered fulfilled all of our requirements and more. Thanks to this work we now have a good understanding of the project requirements and scope to enable us to commit to a significant investment with confidence. The Version 1 team projected a highly professional image and delivered above and beyond what we expected in a short timescale, taking into account the conflicting requirements of many different stakeholders. **Paul Moorhouse, Operations Manager, Financial Systems Support Centre, University of Oxford** ”
