

# VERSION 1

## Microsoft 365 License Health Check

### Rapid Assessment of Microsoft SaaS Consumption and Cost Optimisation Opportunities for Microsoft 365 and Office 365

Microsoft has transformed the way in which organisations acquire and consume licenses for Windows, Office, Collaboration, Management and Security Tools. Without the necessary governance and Microsoft licensing expertise, many organisations will create unknown financial waste due to challenges such as:

SaaS User Subscription  
License Management

Suboptimal User  
Requirements Profiling

Shelfware Created by a  
Lack of Adoption

Security and Compliance  
Management

### Microsoft 365 License Health Check

Using a blend of automated data driven tooling and the expertise of the Version 1 License Optimisation team this rapid Health Check service identifies Microsoft SaaS waste and uncovers license cost optimisation opportunities.

The Health Check high-level steps are:

#### 1 - Connect

Quickly install and configure the  
Version 1 data collection service

#### 2 - Analyse

Compile consumption & licensing  
insights, verify current state and  
future state goals

#### 3 - Report

Present cost saving and waste  
management recommendations

### Microsoft 365 License Health Check Deliverables

Delivered by Version 1's highly experienced Microsoft License Consultants through tried and tested data gathering, analysis and reporting techniques, the estimated elapsed time for the engagement is approximately 5 working days depending on scale and complexity. Health Check deliverables will include:

Microsoft 365  
Consumption Reporting

License Compliance  
Health

Clear Identification of  
Inactive Users & Applications

Cost Reduction  
Recommendations

Subscription Reprofileing  
Opportunities

SaaS License Management  
Recommendations
