

## AWS Optimisation & License Assessment for Microsoft Workloads

### Achieve optimised cost and reduced risk at the start of your cloud journey.

Moving your Microsoft Workloads to AWS without thorough pre-planning, especially around licensing, can lead to complexities surrounding license non-compliance and potential increased cost. As an AWS Premier Consulting Partner, **Version 1 is certified by AWS to support customers across all AWS cloud migration phases; Assess, Mobilise, and Migrate & Modernise.**

As part of the **Assess** stage, Version 1's AWS Optimisation & License Assessment for Microsoft Workloads will provide insights, deployment options and potential cost savings across AWS's flexible licensing options ensuring the right license decisions are taken at the start of your migration project.

**72%**

Average rate of license compliance that can be resolved using optimisation techniques.

**45%**

Rate of organisations who perform 'lift-&-shift' to cloud IaaS without optimisation will be overprovisioned by as much as 55%. (Gartner)

### AWS Optimisation & License Assessment for Microsoft Workloads - Delivery Elements

Built upon the consultative cloud and license experience and expertise of Version 1, this license assessment includes the following deliverables:
