

PeopleSoft Apps Day 2022

The Magic Circle,
London
20th October 2022
09:45 - 17:00

Agenda

		Room Key			
		Devant	Theatre	Club Room	
Starts	Ends	Room	Session Title	Speaker	
09:45	10:30	Devant	Registrations & Coffee		
10:30	10:50	Theatre	Welcome: Introduction to the Day Ahead	Simon Wragg	
10:50	11:20	Theatre	Why Is Peoplesoft Still As Relevant As Ever?	Simon Wragg Ronald Jaarsma (Oracle)	
			There is always noise in the HCM and ERP market, but PeopleSoft is as relevant as ever. Cloud based, secure, highly functional, regular new feature updates, flexibility through selective adoption, extensive integration, leading analytics, a modern UI and long-term commitment from the vendor. In this session we will explore the main reasons we believe PeopleSoft still makes a compelling proposition to meet today's business demands, as well as those of the future.		
11:30	12:00	Theatre	What's New In 8.60 and Why You Should Upgrade	Sasank Vemana (Oracle)	
			Oracle continues to invest in PeopleSoft PeopleTools technology. In this session, you will hear about some of the key features delivered in the latest release and the business value they can bring to your PeopleSoft applications. Join us to get a sneak peek at our investments in user experience, emerging technology, LCM, and more.		
11:30	12:00	Club Room	Tackling Workplace Diversity, Equity and Inclusion (DEI)	Liz Derrer, Arshiya Khan, Yuen Yung	
			With workplace DEI being high on the HR Agenda this session has been designed to show how you can optimise your PeopleSoft Application to collect the relevant data and then take action based on the output.		
			We will look at Gender Identity Functionality, preferred names and pronouns, activity guides, questionnaires, attachments, approvals, acknowledgements as well as Kibana analytics to provide a bigger picture of how your organisation could tackle this current HR hot topic.		
12:10	12:40	Theatre	Code Red	Graham Varley	
			Airport system disruptions, Cash point outages, Medical systems inaccessible...we all know software implementation failures can have serious consequences. But the IT industry has been around for a while now and today we have a multitude of methodologies, coding patterns, test frameworks etc, so why today do some software projects still struggle or even fail? Has "the Cloud" and new technology and approaches helped or hindered?, this session will have a look at some of the reasons projects get into trouble and offer some practical advice on steps you can take to prevent your project dashboard going red!

			LUNCH	
12:40	13:40	Devant		
13:40	14:10	Theatre	How To Stay Awake After Lunch and Keep Your Peoplesoft System Secure	<i>To be confirmed</i>
			Hopefully you've just had a nice lunch and might be feeling like an afternoon nap is what you need. Well, maybe it is. So, it's my job to keep everyone awake and show you how to keep your PeopleSoft system secure in the process. We'll cover Security Assessments and Audits, PeopleSoft Data Scrambling, User Monitoring, and more.	
13:40	14:10	Club Room	Handy Features In Financials & Tips On Privacy	Gayathri Kathiravan & Yuk Lam Wong
			Tired of looking for suppliers' information and assessing them in your system? Supplier 360 and Supplier Scorecard are one-stop solutions to your problem. In this session, we will introduce you to Supplier 360 and Supplier Scorecard to manage your supplier relationships for better procurement decision-making. We will also talk about how you can manage customers through Collection Workbench, Delegation Framework, how you can visualise your data in general ledger via Kibana Dashboard, as well as share some tips for Data Privacy in Peoplesoft.	
14:20	14:50	Theatre	Getting Started With Kibana Analytics	Sasank Vemana (Oracle)
			In this session we will cover: <ul style="list-style-type: none"> ✓ What is Kibana? How does it work in the context of PeopleSoft? What is the business value? ✓ How do we get started? ✓ Deploying delivered analytics ✓ Building your own analytics from scratch 	
14:20	14:50	Club Room	Out With The Old & In With The New – Modernisation	Gary Lindsay & Russ Lakin
			In this session we will be discussing the continued modernisation of PeopleSoft from a functional perspective. We will demonstrate what has already been done in the application, presenting some of the best features, as well as touching on what is yet to come!!	
15:00	15:30	Theatre	A Guide to PeopleSoft Frameworks and Other Amazing Features	Rob Swailes
			Oracle has been growing the number of Frameworks in recent years, but what are PeopleSoft Frameworks and why should we use them? Let's take a run down the frameworks and what each has to offer. Then finish off with a more in depth look at some of the great features from what we think are the most important Frameworks.	
15:00	15:30	Club Room	The Future of PeopleSoft Managed Services	Alex Lightstone
			Today's Application Support Teams face ever increasing challenges maintaining secure, stable and fully featured applications. Find out more about Version 1's proactive solutions, created to simplify and assist with managing your PeopleSoft environments.

15:30	15:50	Devant	BREAK		
15:50	16:20	Theatre	<i>New Stuff You Might Want To Know – Peoplesoft Tips & Tricks</i>		Rob Swailes
<p>Sit back and strap yourself in for a race through a developers creative mind! We will take a look at some of the recent PeopleSoft technologies and see how we could use these to create some innovative solutions in PeopleSoft.</p>					
15:50	16:20	Club Room	<i>Where Is My Team - A Look At Hybrid Working</i>		Liz Derrer
<p>Regularly identified as one of the hottest trends for HR, hybrid working looks here to stay. In this session we will show how you can optimise your PeopleSoft Application to collect the relevant data and then take action based on the output. We will look at Self Service requests for Remote working, announcements, Analytics Dashboard and also introduce the new Managers Team Calendar Feature.</p>					
16:30	17:00	Theatre	<i>PeopleSoft of the Future</i>		Simon Wragg & Graham Varley
<p>PeopleSoft is as relevant as ever, with great new functionality, features and technology on offer for us to exploit. But what will the future look like for a PeopleSoft client? In this session we will explore how we think clients will run, exploit and gain real advantage from their investment in PeopleSoft, now and in the future.</p>					
17:00 18:30		Drinks and Networking			

About the Event

The PeopleSoft Applications Day is back in the diary!

On Thursday, 20th of October 2022, Version 1 will be hosting an exclusive event for PeopleSoft customers. The PeopleSoft community is magical and this year we're meeting at the HQ of Magic – The Magic Circle in London. This event has been expertly designed to bring the PeopleSoft community together, to share experiences, and learn about the hot topics in the PeopleSoft world. Whether you're running PeopleSoft HR, Financials or Campus, this event is designed with you in mind.

The event is free of charge for Peoplesoft customers and will enable attendees to learn from the leading experts in the PeopleSoft field. The PeopleSoft team at Version 1 looks forward to you joining us on the 20th of October to be part of the magic.
