

VERSION 1

APPLICATION MODERNISATION

Modernise Your Existing Applications for Greater Innovation and Agility

Version 1 helps customers across the UK and Ireland derive optimal value from existing systems. We are in a rapidly changing Digital era, and businesses face increasing pressure to change the way they operate. We don't believe you should let the investment you have already made go to waste – we can help you to modernise your core business systems and legacy applications to work in the way you need them to.

A Unique Methodology for Modernising Applications

Our unique methodology for modernising applications is highly beneficial to enterprise organisations seeking an agile, strategic and outcome-focused approach to Application Modernisation.

Leverage Emerging Innovation to Improve Your Existing Applications

- | | | | |
|---------------------------|---------------------------|--------------------------------|----------------------|
| ✓ Containers | ✓ Kubernetes | ✓ Databricks | ✓ BI & Analytics |
| ✓ Big Data | ✓ Machine Learning | ✓ IOT | ✓ Chatbots |
| ✓ CI/CD | ✓ Devops | ✓ API Facade | ✓ Mobility |
| ✓ Cloud Cost Optimisation | ✓ Digital User Experience | ✓ Site Reliability Engineering | ✓ Service Led Design |

“ National Highways’ NILO reporting is now a faster, more comprehensive service than ever before ensuring road users have a better experience, less stressful journeys and improved journey times when travelling.
- **Tim Priest, National Operations Team Leader**

Azure Expert MSP

“ In Version 1, Cafcass has a true partner. Our organisation’s missioncritical systems have been moved off-premise to the Cloud which has resulted in very positive financial and efficiency savings which are extremely important for managing an ever-increasing demand for our services. However, the relationship also resulted in further positive benefits as we have found in Version 1 a partner who really cares about our organisation, displaying empathy to our needs and priorities.
- **Robert Langley, CIO of Cafcass**
