VERSION 1

Why Version?

New Perspectives

Our consulting team is comprised of highly experienced and technology-driven change leaders. With 1,000+ engagements across a spectrum of industries and business processes, we bring learned intelligence and techniques to every customer scenario.

Smarter Deployments

Not every client needs a radical transformation of their finance systems. Sometimes what is needed is the speedy deployment of proven approach with minimum fuss. We can help in both scenarios and can grow with you as your needs change.

Outstanding Support

Success with a new system is closely aligned to the support available to new users. Our support team is there to help when needed to help you build user confidence.
