JD Edwards (JDE)

Expert consulting and support services to enable our customers to maximise the benefit from their JD Edwards investment.

As the go-to-partner for JD Edwards customers, we support enterprise organisations in utilising core ERP systems to streamline processes, to not only change the way organisations are run but also how efficiently they run.

We are experts in managing JD Edwards ERP systems, implementations, upgrades and managed services, for enterprise organisations, across a broad range of sectors, from JD Edwards World through to EnterpriseOne 9.2.

Unrivalled expertise and experience in Oracle JD Edwards services

Consulting

We assist customers in maximising their JD Edwards investments, offering unique services like the Roadmap Discovery process and specialist Architecture Reviews.

ASPIRE managed services

Our JD Edwards Managed Service specialists are best placed to guide you to continuously take advantage of new features and services arriving to JD Edwards.

Software Asset Management (SAM)

Our SAM team helps our JD Edwards customers identify compliance risks and optimisation opportunities across their IT estate.

Implementation and upgrades

We combine JD Edwards expertise with industry knowledge, utilising a best practice for implementations and successful upgrades to JD Edwards 9.2.

Strategic roadmap assessment

Streamline operations and align with business goals using Oracle Cloud, AI, and analytics to drive efficiency, innovation, growth, and enhanced security.
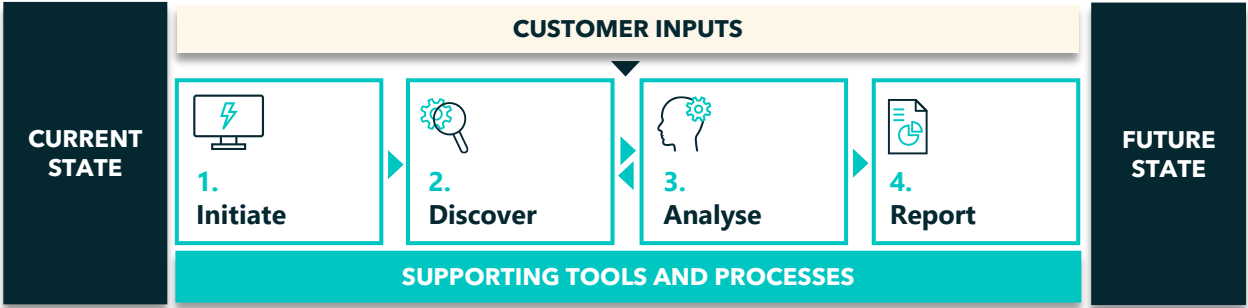

Cloud infrastructure

From cloud adoption, through to modernisation optimisation, we are trusted cloud transformation experts with a future-focused, value-led approach and deep sector experience.

Empowering businesses to make high quality decisions for sustained success with integrated AI.

We employ a structured and phased approach to deliver
